EXPLORE JAPAN'S CRITICAL MINERALS OPPORTUNITIES SPURRING INVESTMENT & INNOVATION FOR THE SECURITY AND FUTURE OF THE ECONOMY ACROSS KEY ADVANCED MANUFACTURING SECTORS

Critical Minerals Japan Conference and Exhibition is firmly established as Japan's largest international critical minerals, commodities, investment, clean energy & technologies show, bringing together the entire mineral resources value chain to Tokyo.

Japan's economic security depends on the access & availability of the critical minerals which are fundamental in an advanced manufacturing economy, aerospace, defence and high-tech industries such as semiconductors, batteries, electric vehicles, wind turbines and solar panels. Japan's government, trading companies, mining companies, automobile companies, electronics firms, banks, investment funds, and others are all focused on securing new supplies of those strategic minerals around the globe.

We are highlighting global alliances, national security issues, commodities forecasts & demand, mining investment trends, exploration opportunities, financing models, sustainability goals, ESG and technological innovations that play a crucial role in shaping the new era of mining & energy industry.

Position your company at the forefront of the mining & critical minerals industry, alongside 25+ exhibitors and meet with 250+ key decision makers, qualified buyers and industry professionals who are actively seeking projects, products, technologies and solutions that will accelerate the mining momentum in Japan, and beyond.

Critical Minerals Japan is held in Tokyo to connect global investors, mining companies, government representatives, investment funds, banks, industry associations, service companies and equipment producers via personalised networking platforms, 1-2-1 meetings and social events.
